

### PROGRAMME OVERVIEW

update September 19, 2019

**November 28, 2019**

**Venue: CORPUS Congress Centre**

**Leiden Bio Science Park (Oegstgeest area) - the Netherlands**

## 'Accelerating change in healthcare'

07:45 The separate registration desks are open at the resp. Hilton Garden Inn Leiden hotel, next to CORPUS to welcome our breakfast guests to the Investors Forum session and CORPUS entrance for our CxO breakfast attendees.

---

08:00 **CxO breakfast meeting:** for CEOs, CFOs, COOs and CBOs active in the life sciences sector

Limited places are available and only to MT members from (R&D) life sciences companies who are attending the conference.

08:00 **Investors forum part 1 - breakfast session -**  
MODERATOR: **Harrold van Barlingen**, Managing Partner at Thuja Capital

*The investors forum is an exciting opportunity for those companies looking for equity capital and/or partnerships with companies and institutes across the life sciences value chain, from biotech, medtech and pharma companies to financiers and universities. The forum offers excellent opportunities for presenting your company or university to all major Dutch life sciences investors and discuss your business strategy, technology direction and capital-raising plan.*

Pitching companies:

- To be announced
- 

08:45 **Registration desk, exhibition and startup corner open**

---

09:30 **Start plenary morning programme**

---

10:00 **Live Broadcasting BNR newsradio: BNR's Big Five van de biowetenschappen** (in Dutch) with presenter/journalist Roelof Hemmen

---

09:30-10:45 **Plenary morning programme**

09:30	<b>Welcome by chair Erik van den Berg, CEO AM-Pharma</b>

15:30-15:45 **Announcement winner ‘Progress investors forum prize’**

15:45-16:00 **Celebration ceremony ‘25 years Mibiton’**

Already since 1994 the Mibiton Foundation invests in Life Sciences equipment and facilities enabling Dutch SME’s to accelerate their commercial activities. Examples of investments include analytical equipment, first series of medical devices, clean rooms and agro-food production facilities. During the session we will highlight our 25th anniversary.

With contributions by **Colja Laane**, Chairman Mibiton, **Kees Recourt**, Investment Director Mibiton and **Hans van den Berg**, Board member Mibiton.

16:00-16:45 **Closing keynote lecture** about ‘Technology, innovation and medical aspects in space travel’.

By **Dr. André Kuipers**, Astronaut and Ambassador of Earth

Being a physician André Kuipers was inspired by the idea of helping humanity to be able to continue its ever growing space travel aspirations. The way in which the human body adapts to the conditions in space has always been intriguing for him. In the field of aerospace medicine André Kuipers was involved in a wide variety of research projects. During his space missions he conducted various medical experiments, in which he himself was the test subject most of the time. From his own experience he tells about the effects of acceleration forces and zero-gravity on the human body. Moreover, the medical aspects of being on board the ISS are discussed: the gym, the defibrillator, psychological issues and radiation as well as the system for air, food and water which are put in place to make life in space possible.

16:45-17:00 **Wrap up and closing act**

17:00-18:30 **Reception**  hosted by

*Note: the organisation keeps the right to make changes to the programme at any time.*
