*European Medicines
Agency coming to the
Netherlands*

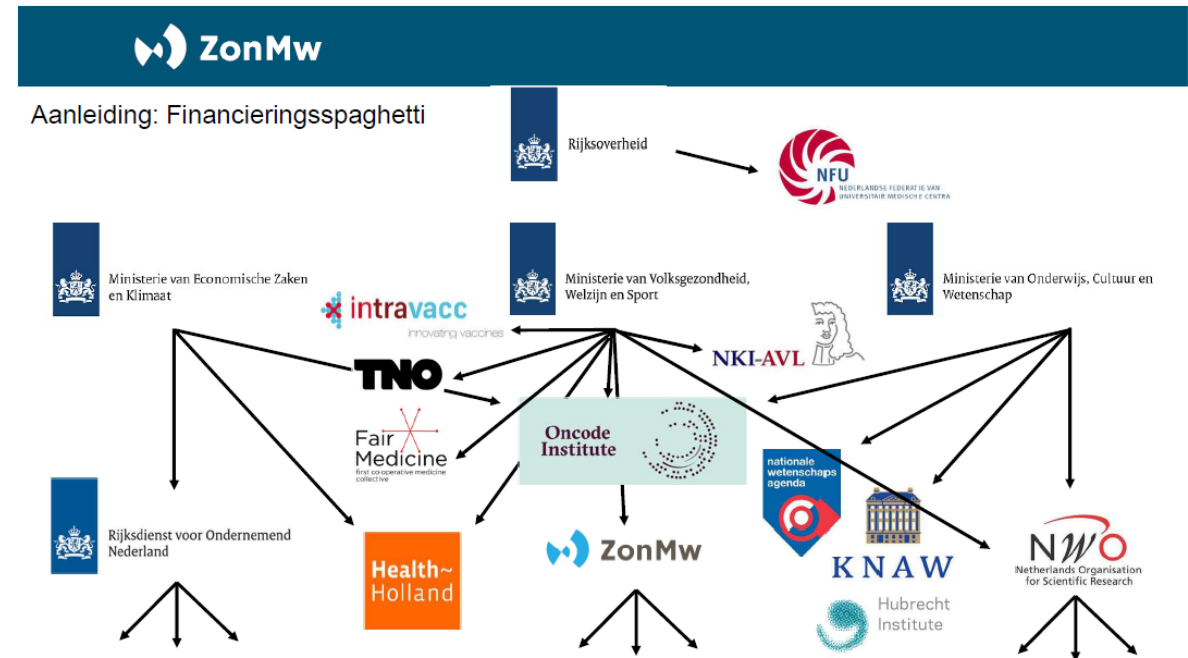

2018: fact finding trip to Boston

FAST: future affordable sustainable therapies

*Close collaboration with
Topsector LSH /
Health~Holland*

Mission Health & Care

- > Central mission: In 2040 all citizens in the Netherlands live at least 5 years longer in good health, and the health inequalities between high and low socio-economic populations have been reduced with 30%

- > **Mission I**
Lifestyle and
living context

- > **Mission II**
Availability of
(innovative) care

- > **Mission III**
People with
chronic diseases

- > **Mission IV**
Dementia

"Mission V"
The Netherlands as the primary pilot state for LSH-
innovation and -valorization
